Software Engineer

Dhaka, Bangladesh

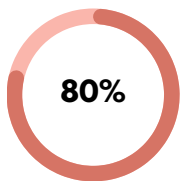

## MY SKILLS

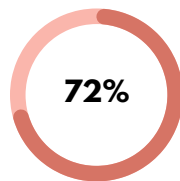

PHP

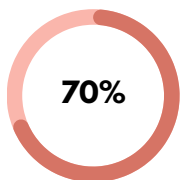

JavaScript

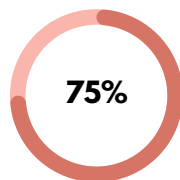

Laravel

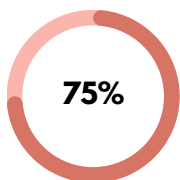

Vue.js

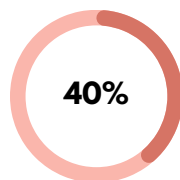

Codeigniter

MySQL

Communication

DevOps

## JOB EXPERIENCE

Remote **Software Engineer**

MetaDesign Solutions | 4/2022 - Present

- I contributed to a team project using agile practices to develop features and bug fixes for a Yii 1.1 CRM.
- I worked on a successful automation tool using Codeigniter, PHP, MySQL, and JavaScript, helping accountants backup and restore Xero organizations for users in Canada and Australia.

Dhaka **Web Developer**

Quadque Technologies | 9/2021 - 3/2022

- I used Laravel and Vue.js to develop a Learning Management System with features such as course creation, enrollment management, and progress tracking.
- I created a portfolio project for a client using the same technologies, incorporating extensive design modifications to showcase their work and attract potential clients.
- I developed an e-commerce site for Zaker Dairy Farm using PHP, Laravel, JavaScript, Vue.js, and MySQL, enabling secure and interactive online purchases.

Dhaka **Software Programmer**

World University of Bangladesh | 11/2019 – 8/2021

- I created a Android app using Java and Kotlin for a university, allowing teachers and students to manage classes and attendance efficiently.
- Utilizing MOODLE, I developed an E-Learning platform for a university, which enabled students and educators to collaborate and manage academic content online.
- I created a secure alumni website for a university using Laravel, PHP, and MySQL with interactive features.

Dhaka **Web Developer**

WebAppick | 9/2018 – 9/2019

- Using Laravel, PHP, MySQL, and Vue.js, I created a social engagement management system web app that effectively responds to comments across multiple social media channels from a single page.
- I worked on a WordPress plugin using PHP and Vue.js that enabled customers to generate product feeds.

Dhaka **Jr. Web Developer**

LightCastle Partners | 9/2017 – 8/2018

- As part of my work, I contributed to a web app project built for a client using Laravel, PHP, MySQL, and Vue.js.
- I worked on this REST API project using Laravel, PHP, and MySQL. The project provided a range of functionalities for a CRM android app.
